DETAILED ACTION

Election/Restriction

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Invention 1 Claim(s) 1-5, drawn to a fructosylamine oxidase.

Invention 2 Claim(s) 6-10, drawn to a DNA encoding a fructosylamine oxidase, host cell , and method for preparing a fructosylamine oxidase.

Invention 3 Claim(s) 11, drawn to a method of measuring amadori compound in a sample.

2. The inventions listed as Inventions 1-24 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

A same or corresponding technical feature shared among Inventions 1-3 is a fructosylamine oxidase of any amino acid sequence and structure. However, this technical feature has already been taught in the prior art by Accession AAW69251 (Asahi Kasei Kogyo KK, 28-OCT-1998).

Accession AAW69251 teach a fructosylamine oxidase that has 92.4% amino acid identity to the claimed SEQ ID NO: 6 (see attached alignment). Thus, the same or corresponding technical feature is not special since it was known in the prior art and therefore cannot make a contribution over the prior art. Since the inventions lack the same or corresponding special technical feature, then the inventions listed as Inventions 1-3 are not so linked as to form a single general inventive concept under PCT Rule 13.1.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

Art Unit: 1652

named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christian L Fronda whose telephone number is (571)272-0929.
